

Adopt-a-Road Near You!

Help keep Grayson's roadways free of trash and debris, sign up to Adopt-a-Road! Sponsored by Gwinnett Clean & Beautiful and Gwinnett County Department of Transportation, this program helps prevent litter by giving you the tools to safely reducing the amount of trash and illegal signage along roads. Keeping our community clean helps to decrease crime, increase economic growth, and improve quality of life.

Getting started is easy. First choose a road to adopt or visit <https://gwinnettcg.org/programs/adopt-a-road/> to view all roads available for adoption. You will clean your adopted road at least four times a year, so it's important to find one that's close to you. Then contact Gwinnett Clean and Beautiful to confirm your road selection and participation. All supplies, such as garbage bags, signs, gloves, and safety vests will be provided for your clean up.

Help beautify our city by inviting your friends, family or coworkers to clean your adopted road! For more information visit gwinnettcg.org.
